

Mexico's Sea of Cortes

Planning for Your Journey

Weather in Baja California

Baja California is one of the most cloud-free regions in the world, with climatic zones ranging from tropical to semi-arid. Rain showers are infrequent, but can be intense. Daytime temperatures are likely to range between 75° and 90° F, while nights are cooler and temperatures may drop into the 60's. Water temperatures vary depending on location, but generally hover in the neighborhood of 70° F.

Dress Code

Our dress code, including the dinner hour, is casual. Bring the clothes you feel most relaxed in and the ones you will be comfortable wearing during the included activities and excursions. See suggestions below.

Stateroom and Yacht Amenities

We provide each stateroom with two robes, a hair dryer, an alarm clock, umbrellas, towels and toiletries (shampoo, conditioner, lotion, and soap). Additionally, the yacht has binoculars, sun block, aqua socks, wet suits and snorkeling equipment available on board for your use. Electrical outlets are standard 110v and can accommodate the same needs as the outlets in a typical home. Please check all of your equipment to ensure that you have the required chargers, adapters and converters for safe operation at 110v.

Packing for Your Yacht Cruise

Each day you will have opportunities for kayaking, snorkeling and shoreside exploring. Mask and snorkel sets are provided by the boat, but you may be more comfortable in your own gear.

Here are some suggestions:

Pants and shorts: Several pairs of shorts and a pair of khakis or jeans

Shirts: A selection of polos and t-shirts, or tank tops

Jackets: Rain/wind jacket with a hood, a fleece or zip-up vest and/or casual jacket

Shoes: Sneakers or sturdy, comfortable walking shoes/day hikers; sandals or flip flops that you don't mind getting wet

Sunny weather gear: Bathing suit, sunglasses, sun block (if you prefer having your own), a brimmed hat

Binoculars: There are several binoculars on board for your use but you may be more comfortable bringing a pair that you are already familiar with. If you bring your own, please mark them with your name.

Camera and film: Don't forget to pack plenty of film, or have ample digital storage and batteries for your camera. You are bound to use more than you think you'll need. You may want to store your camera in a waterproof case and bring heavy gauge resealable plastic bags as extra protection for your camera and film.
